Garage 5, Bramley Close, Twickenham, Middlesex TW2 7ET

Guide Price: £18,000*

Lock up garage in need of updating

This lock up garage is situated on a piece of public amenity land opposite the houses in Bramley Close and on the end of a terrace of five lock up units. This lot that is sold with vacant possession is in need of complete updating and modernisation. The garage is of traditional construction with single brick walls under a pitched timber frame roof covered with plain clay and concrete tiles. The doors are older style double timber casements with glazed upper sections. The roof drains to PVC gutters and the floor is of concrete. A made-up driveway provides access off Bramley Close. Bramley Close is a quiet cul-de-sac of 1930's built houses and maisonettes in an established residential area between Whitton and Hounslow and to the west of Twickenham, all of which provide a good range of facilities and amenities.
